RE: Max Potential Program - Gosford.

Dear Sir/Madam,

I have had the pleasure of being a Community Coach on the Max Potential Gosford Program for the last four years.

During this time I have had the opportunity to work as a positive influence on local young adults and watch them grow as an outcome of the program.

Max Potential is an innovative program that provides young adults a liberating framework to examine their current state and use the MAXIMISER principals to develop a growth plan. During the program young adults also work on a community project where they get the opportunity to positively influence their local community. The growth I have seen in the young adults on the program is a testament to the model used during Max Potential and creates life long memories in the young adults.

I have no hesitation in recommending Max Potential and the positive role it plays in developing strong community minded adults.

Yours Sincerely,

Daniel Sullivan
