Dear Gosford RSL Club Members

For 60 years Gosford RSL has played an important role in supporting our Members and the wider community. As the CoVid-19 situation continues to evolve, we are doing everything we can to maintain this support and keep each other safe and well.

In troubled times we have always been here to help our members and the community and now is no different. Our Executive Chef and his team are set up to prepare, package and deliver essential food relief to the most vulnerable people in our community. This service is also available to members who can avail themselves of home delivery from a specially designed takeaway menu available on the club's webpage, Facebook, or the GRSL App.

The Management of our Club, proficiently led by Russell Cooper, should be commended for the manner in which they have approached this unpredictable crisis, complying at all times with all of the various legal requirements to ensure the Club remains compliant.

Our heartfelt thanks must also go to our extraordinary Staff for their loyalty and understanding of all of the decisions that have been taken on their behalf by Russell and his Team.

We are aware of how unsettling the uncertainty surrounding the re-commencement of Club operations can be for our Members, but rest assured, your health and safety is of paramount importance and as such Russell and his Team will continue to manage this situation so that when restrictions are removed, we will be able to welcome you back into the familiar surrounds of your Club.

If we can be of assistance, please contact Reception on (02) 4323 2311.

Thanking you for your understanding and perseverance,

Gosford RSL Board of Directors
